DETAILED ACTION

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Masters in view of Kilgore.

Masters discloses the field of the invention, including a floating dock with valley and a pair of ridges as claimed. Masters fails to disclose wheels mounted within pockets as claimed.

Kilgore teaches ridges for supporting a watercraft. Each ridge includes pockets with wheels mounted therein upon bearings (inherent). The wheels list inwardly as claimed.

It would have been obvious to one of ordinary skill in the art at the time of the invention to provide Masters with wheels as taught by Kilgore.

Such a combination would have been desirable at the time the invention was made so as to provide ease in loading, and hull protection.

3. Claims 7-11 are allowed.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Hillman et al. Discloses the field of the invention.

Miklos discloses a bow bumper.

Art Unit: 3617

Hayakawa, Ban et al. And Horn et al. disclose sectional dock securing means.
